- IV. Health Commissioner Report:** Mr. Migliozi provided a written report to the Board for their review. In addition, Mr. Migliozi elaborated on the National Guard testing being conducted in skilled care facilities in Ohio. The National Guard conducted more testing this week, and will continue next week. Thus far, they have completed testing of employees at 13 long term care facilities in Trumbull County and at the Trumbull Correctional Institution. A new Public Health Nurse I has been hired, Lindsay Adams. Ms. Adams worked in the emergency room at St. Joseph Hospital, so she will have COVID experience, and will be conducting contact tracing. We have also hired a Sanitarian-in-Training, Dan Bonacker. Mr. Bonacker has a Master’s in Public Health, and worked with our agency to do his practicum, helping us with our Access to Care addendum. He will also assist with contact tracing. We are starting to see an increase in cases in Ohio, and the Governor will be instituting a Public Health Alerting System. This altering system will have 3 levels; Level 1 – Some Risk & Take Current Precautions; Level 2 – Moderate Risk. Higher risk of exposure in the community, especially for immune-compromised individuals; Level 3 – High Risk. Limit activities as much as possible, starting to see spikes in the community; and Level 4 – Severe Risk. Back to “Lockdown”. The local and state officials will work together on announcement of increased levels in the community.

C. Support of Trumbull County Commissioners in Forming a Steering Committee to Develop a Resolution Declaring Racial Health Disparities as a Public Health Crisis & Pledging a Community Effort to Address Racial Health Disparities in Our Community – The Trumbull County Commissioners are in the process of developing a steering committee to create a resolution declaring racial health disparities as a public health crisis. The Trumbull County Combined Health District recognizes that until there is a public recognition and response to these racial health disparities influence on the ability of residents to live healthy, full lives, there is little hope to make meaningful change in the quality of life for thousands of residents in our communities. In the 2020-2022 Trumbull Community Health Assessment, the story the numbers tell of the differences between black residents and white residents was painfully clear. Respondents who identified as Black/African American reported having significantly higher rates of obesity, more frequently reported feeling sad or hopeless for two or more weeks in a row in the past year, higher infant mortality rates, and more frequently reported feeling upset, angry, sad, or frustrated as a result of how they were treated based on their race than

respondents who identified as White. Because of the staggering data, the Trumbull County 2020-2022 Community Health Improvement Plan identified health disparities by race and zip code, which goes hand in hand with poverty rates. These racial health disparities were present in all priorities and focus areas that it was chosen as a cross-cutting factor affecting health in multiple ways. To adequately and appropriately address health inequities present in our community, racial health disparities must be called out and directly confronted as an underlying or root cause for the stark differences in health outcomes, life expectancy, wealth and income, educational attainment, housing conditions, and other factors that contribute to the ability to live a long, healthy life.

MOTION: 20-80 made by Mr. Messersmith, second by Mrs. Salapata to support the Trumbull County Commissioners in forming a steering committee to develop a resolution declaring racial health disparities as a public health crisis and pledging a community effort to address these racial health disparities that are present in our communities.

Health Commissioner's Report – June 24, 2020 Board of Health Meeting

1) Budget/Financial

- Attached is the monthly financial report for May 2020. The general fund is at a positive cash balance of \$502,767.20, and our all fund balance at \$2,276,195.05.

2) Credit Card

- Quarterly update on the credit status has not changed.
- For the credit card transactions, please see the list of bills.

3) Time Study

- Attached is my time study for the month of April. The bulk of my time continues to be spent on PHEP (COVID-19 issues).

4) Vehicles

- Attached is the cost analysis for the month of May for the vehicles. The overall cost savings with the vehicles, for the month of May was \$604.43, with a year to date savings of \$2,535.98.

5) Building/Grounds

- Basement renovations continue. The drywall and lighting have been installed, and we hope to have the basement finished in the near future.

6) Union/Management

- We have interviewed several individuals for the nursing and sanitarian positions over the last couple of weeks, and hope to hire someone soon.

7) Policies/Procedures – Revisions

- None

8) COVID-19 (Coronavirus)

- The National Guard has begun testing in skilled care facilities in Ohio. As of right now, they are conducting testing at Windsor House of Champion, Shepard of the Valley in Niles and Continuing Healthcare at the Ridge. Arrangements are being made for testing in the near future of other facilities in Trumbull County.
- The state of Ohio has opened testing for asymptomatic individuals, and we have identified several sites in Trumbull County that are performing the tests. We have communicated with first responders and other worksites where employees may have been exposed to a positive person that these test sites are available, and have encouraged asymptomatic individuals to be tested.
- Kris Wilster and I will be having weekly communication with school superintendents regarding safe reopening of the schools in the fall.
- As stated in my previous reports, on March 11, 2020, Trumbull County had its first positive case, and upon receiving that notification from the Ohio Department of Health, we went into full activation of the DOC. We established daily operating periods, and this meant we went to a 7-day workweek, and we are continuing to do that. To date, there have been 670 cases and 54 deaths in Trumbull County, and our environmental division has fielded and/or investigated in excess of since the last Board of Health meeting we have received an additional 70 complaints.
- We continue with the issuing of daily press releases, and chose to do this method of communication versus face-to-face briefings in order to limit close contact.
- The strike call meetings for “hot spot” outbreaks in congregate living sites, as well as workplaces are continuing. This “Strike Team” involves rapid identification of cases, enhanced contact tracing and increased

testing so that individuals that are positive or exposed can be properly isolated and quarantined to limit the spread of the virus. We have experienced good cooperation with the team members and the facilities.

- As we entered the next phase of our COVID-19 response, "Responsible Restart Ohio", the following was and continues to be instituted at our agency. The only changes have been that those employees working remotely, have returned to the office, and we installed visqueen sheeting between the workstations to meet the 6 foot distance recommendation:
 - Employees are to ensure a minimum of 6 feet distance between employees.
 - Employees are to perform a daily symptom assessment that will include having their temperature taken upon entry into the building, and informing their supervisor if they have a cough or trouble breathing.
 - Any symptomatic employee must stay home and use their sick time.
 - Unless an employee meets, and is granted an exemption by their supervisor, all employees are to wear face coverings to cover their nose and mouth when they are in common areas of the building, and when meeting or working with a customer.
 - When a customer wants service within the building, beyond the foyer, employees are to set them up by appointment to provide for social distancing requirements. Customer arrivals should be staggered to avoid congestion and physical distancing violations. The employee will meet the customer at the front door to unlock it, take their temperature and assess, make sure the customer is wearing a face covering and escort them back. In addition, to limit contamination to work areas, no customers are to be brought back to employee's workstations.
 - Employees have been instructed to regularly wash their hands, use hand sanitizer, and to take every effort to reduce the sharing/touching of work materials, and should sanitize their hands when they must touch shared items, such as the copier.
 - Travel is being limited as much as possible, with exception to field inspections, and meetings are continuing to be conducted by conference call instead of face-to-face.
 - Daily cleaning of our facility continues 5 days a week, and the employees have been instructed to wipe down common touch areas after a customer has been allowed in an area, using gloves and spray wipes.
 - The maximum capacity in our patient waiting room is limited to 4 individuals to provide for proper social distancing, and the lunchroom is limited to 3 individuals.
 - Administrative hearings continue to be conducted via telephone.
 - Several environmental inspections have resumed with limitation to being scheduled appointments, so that physical distancing requirements can be met, and inspectors are to wear masks during indoor inspections; however, there will be no inspections at high-risk facilities, such as long-term care facilities, until further notice.
 - Car seat and crib classes will resume, but must meet the requirements outlined above, and staff has been discouraged from installing the seat into someone's car to limit contamination.
 - Immunizations can resume, meeting the limitations above; however, we will not be going into the community to conduct clinics.
 - The home visiting program visits will continue to be conducted by teleconference.
 - General safety messages and the wearing of face coverings have been posted at the entrance and on the downstairs lobby television.

9) Other

- Kris Kriebel, our Health Educator, has been asked to sit on the Board of the American Heart Association. From time to time a member of our staff is asked to sit on various Board, so this is not out of the norm, but it does require Board approval, and you will see it on the agenda for the June 24, 2020, meeting.

- TCCHD is receiving monies from ODH to purchase diapers, wipes, and phone cards for families enrolled in home visiting as an incentive to keep engaged through tele-visiting. The Family Support Specialists (FSS) drop off the incentives at a separate time, practicing social distancing, if the family completes their scheduled tele-visit. The following is May's distribution for each FSS:
 - Jen Francis – 31 Diaper drop offs;
 - Tara Lucente – 36 Diaper drop offs; and
 - Beverly Cope – 13 Diaper drop offs.
