This loan is supported by a grant from the United States Department of Agriculture, Rural Utilities Service.
WSOS is an equal opportunity provider

Why do I need a Well Assessment?

Well assessments identify potential threats to your drinking water:

- Potential sources of well contamination, including nearby agriculture and septic systems.

What does the assessment involve?

- Visual in-person inspection of your well, including inspection of proper sanitary seals, well cap screen, and casing to reduce risk of well water contamination.
- Review of well construction relative to state standards to note any concerns.
- Evaluation of water source to identify potential vulnerability.
- Additional helpful information will be provided to homeowner to ensure well water safety and reliability.

What if the assessment reveals problems with my well?

- Technical Assistance Providers can help recommend feasible solutions for identified issues and provide assistance to access federal, state, and other funding for well constructions and repairs.

What does the well owner do?

- The well owner needs to be present and available to answer questions.
- Provide Well Log, if available. If not, RCAP can contact the county or state to obtain.

Contact Information:

Tom Fishbaugh
Rural Development Specialist
419/332-2032
tfishbaugh@wsos.org

Cindy Brookes
Watershed Specialist

cabrookes@wsos.org

Due to the limited number of well assessments that will be provided for through this grant, selection will be made based on the geology and geography of the surrounding area of the well.

The Rural Community Assistance Program (RCAP) is part of a nation-wide network of agencies providing technical assistance and training to help small and rural communities develop and improve water and sewer utilities. RCAP also provides a number of other community and economic development, grant writing and administration, and planning services. RCAP is administered by WSOS Community Action Commission Inc., a 501(c)3 non-profit community action agency based in Fremont, Ohio.
